

MINUTES OF MEETING

Morning Stand Up Meet Hypotenuse Analytics

Meeting Info

Organizer: devanshi@hypotenuseanalytics.com
Date & Time: 02 Sep 2026, 10:30 AM IST
Attendees: 27 participant(s)
Meeting Link: <https://meet.google.com/ykk-phns-wcp>

Meeting Notes

Competitive Analysis & Tool Exploration

- Harsh Vardhan shared research on a competitor, highlighting their social media, Instagram presence, and a website. He noted they are not significantly better but should be monitored.
- Discussed an AI assistant tool that syncs with Gmail and learns user email reply patterns, with a free trial available.
- Harsh Vardhan emphasized the need to research tools that can be integrated into their workflows and highlighted the importance of innovation to stay ahead of competition.

CRM and Onboarding

- Devanshi Jaiswal has prepared CRM login details for new team members.
- Harsh Vardhan requested that all new members log in to the CRM.

Prototype and Project Ideas

- Harsh Vardhan proposed several prototype ideas for critical infrastructure protection, including:
- **Drone Jammer:** A low-cost device to jam Wi-Fi and Bluetooth signals from drones, potentially useful for military applications.
- **Lidar Data Generation:** Creating hand-held or drone-based Lidar data for metro pillars, hospitals, and border roads, with low-cost methods.

- **Surveillance Intelligence:** Building a prototype for surveillance systems, possibly using Raspberry Pi.
- Discussed the need to create multiple prototypes and conduct proof-of-concept (POC) exercises in different locations.

Team Assignments & Research

- **Devanshi Jaiswal:** To coordinate and ensure team members log in to the CRM and manage follow-ups.
- **Prakher Saxena:** To research and review the shared competitor information and website.
- **Tarun Gajbimkar:** To explore GitHub for relevant projects and confirm details with contacts about integrating features from other platforms (possibly I Triple).
- **Aryan Prajapati:** Assigned as an "Agentic AI specialist" to work on automation to replace repetitive human tasks with AI agents. To explore how automation can be implemented across team processes.
- **Harsh Vardhan:** To continue researching tools and market trends, and to lead discussions on strategic innovations.

Strategic Insights

- Harsh Vardhan stressed that in a rapidly changing technological landscape, continuous innovation is crucial. He cited examples like Microsoft Office being challenged by Alphabet (Google) making tools free, and Nokia's decline due to missing market shifts.
- Mentioned an interview at Delhi Technical University (DTU) and the need to prepare prototypes and use cases for presentations.

Memorable Quotes

"AI will automate repetitive tasks" - Harsh Vardhan
 "AI is a double-edged sword for the country" - Harsh Vardhan (quoting Xi Jinping)
 "AI is a double-edged sword for the business world..." - Harsh Vardhan

ACTION ITEMS

#	Action Item	Assigned To	Deadline
1	Ensure all new team members log in to the CRM using the provided credentials.	Devanshi Jaiswal	N/A
2	Review and analyze the competitor's website and social media presence shared by Harsh Vardhan.	Prakher Saxena	N/A

#	Action Item	Assigned To	Deadline
3	Explore GitHub for relevant project ideas and confirm with contacts about integrating features from other platforms.	Tarun Gajibimkar	N/A
4	As the Agentic AI specialist, identify repetitive tasks within the team and propose automation solutions using AI agents.	Aryan Prajapati	N/A
5	Prepare for the DTU interview by documenting prototypes and use cases for critical infrastructure protection.	Harsh Vardhan	N/A
